DETAILED ACTION

Response to Amendment

This Office Action is in response to applicant's amendment filed on July 21, 2005.

Claim 1 has been amended. Claim 11 has been cancelled. Claims 14 and 15 are newly added claims.

With regards to claims 7-9, these claims were originally withdrawn from consideration as being drawing to the third species of Figure 4. Claim 10 depends from independent claim 7 and therefore withdrawn from consideration. The rejection for these claims presented in the previous Office Action has been regrettably withdrawn for the same reason.

Applicant's comments pertaining to the rejection applied in the previous Office Action are acknowledged. The claims, as amended, have been carefully considered and are deemed allowable.

Election/Restrictions

Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 2 and 3, directed to the fourth to the sixth species of Figures 5-7, respectively, no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

However, claims 7-10, directed to the species of Figure 4 remain withdrawn from consideration since they do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is

withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-6 and 12-15 are allowed.

The following is an examiner's statement of reasons for allowance: the art of record when considered alone or in combination neither renders obvious an ablation catheter comprising all of the elements as recited in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
